

Window Rainbow

Neighborhoods around the world are spreading cheer during the COVID-19 outbreak with rainbow art. For this project you will create your own rainbow-themed design, that will be displayed in the front of your house.

You can use paint and tape, tissue paper, marker, colored pencil, gel pen, balloons, paper, window paint, construction paper, sidewalk chalk, or any other materials that you find at home. You can use words of motivation, but you should mostly have pictures in your work. You should be working on this project for 30 minutes per school day (4 days this week). Set a kitchen timer, or a timer on your phone, to make sure that you work on the project for a total of 2 hours this week!

When you are finished, you will take a photo of your rainbow design in the front of your house, and send it to Ms. T. via email or Remind101 for credit by Friday. 😊 (You can also find student examples between weeks 11 and 12 on the class website.)
